**Objective** — Adaptable Full Stack Developer with hands-on experience in React.js, Node.js, and MERN stack technologies. Proficient at developing end-to-end solutions that drive efficiency and enhance user experience. Seeking to leverage my skills in a fast-paced development environment.

## Skills

<b>Frontend</b>	React.js, Redux, HTML, CSS, JavaScript (ES6), Tailwind CSS, Framer Motion
<b>Backend</b>	Node.js, Express.js, RESTful APIs, MongoDB, Multer, Nodemailer, Google OAuth 2.0
<b>APIs</b>	Axios, RESTful APIs, email.js
<b>Tools</b>	Git, Firebase
<b>UI/UX</b>	Tailwind CSS, Framer Motion, Sass
<b>Other</b>	JSON Web Tokens (JWT), Cloudinary

## Experience

### CipherByte Technologies

Jul 2024 – Aug 2024

Full Stack Development Intern

Remote

- Developed an Event Planner System incorporating front-end and back-end features including event, guest, and vendor management.
- Implemented Nodemailer for automated RSVPs, enhancing communication and engagement.
- Optimized backend performance, improving data handling and responsiveness.

### Mentorow Technology

Oct 2023 – Jul 2024

MERN Stack Trainee

Kochi, India

- Contributed to developing educational web applications with a focus on both frontend and backend development.
- Engineered a scalable MERN stack framework, facilitating seamless feature integration and enhancing scalability.
- Collaborated with a cross-functional team for code analysis and debugging, significantly improving code quality.

## Education

### Visvesvaraya Technological University

2019 - 2023

Bachelor of Technology in Computer Science and Engineering

Bangalore, India

### Certifications

- Wells Fargo Software Engineering Job Simulation on Forage

## Projects

### Foodeli - A Food Delivery Website

- Developed a secure user authentication system with React.js and integrated Stripe for seamless payment processing.
- Created an admin panel using React and Redux for efficient item and user management.
- Enhanced application performance and scalability with MongoDB for data storage.
- **Tools:** React, Node.js, Express.js, MongoDB, Stripe

### Exedo Estate - A Property Listing Application

- Implemented CRUD operations for property management using React.js.
- Integrated Firebase for storing profile images and user authentication.
- Secured user authentication with JWT.
- Designed a responsive UI with Tailwind CSS.
- **Tools:** React, Redux Toolkit, Node.js, Express.js, MongoDB

### Mentorow - An Educational Institution Website

- Designed and implemented various pages and components for an educational website using React.js.
- Utilized Tailwind CSS for styling and ensuring responsiveness.
- **Tools:** React.js, Tailwind CSS, Framer Motion

### Smart Host - Architecture Website

- Contributed to a responsive architecture website and developed an interactive navbar using Framer Motion.
- Implemented responsive layouts for diverse devices using React.js and Tailwind CSS.
- **Tools:** React.js, Framer Motion, Tailwind CSS
